

The diagram shows a circular label with three concentric regions. The outermost region is a thin black line representing the trim size. The middle region is a thick magenta ring representing the bleed size. The innermost region is a light blue circle representing the safe area for text. A white rectangular box is centered in the light blue area, containing text and color-coded markers.

— Trim size 2"x2" circle

■ Bleed size 2.125"x2.125"

■ Safe area for text 1.75"x1.75"
